

12x12 GROUND-LEVEL RECTANGLE DECK

Easy for
DIYers to build

Total square footage: **144**

BEYOND BASIC CONSTRUCTION TOOLS, YOU WILL NEED:

DECKING

- (25) 1 x 6 x 12' Trex® Grooved-Edge Deck Boards
- (1) 1 x 6 x 12' Trex Square-Edge Deck Board
- (3) Boxes of Trex Hideaway® Hidden Fasteners
- (1) Bag of Trex Hideaway Universal Starter Clips
- (78) Composite Deck Screws

ACCESSORIES

- (3) 1 x 12 x 12' Trex Fascia Boards *optional*
- (117) Composite Fascia screws

THIS DESIGN:

- » Offers room for outdoor eating and grilling
- » Standard shape makes for a versatile, multi-use space
- » Perfect for a relaxing, garden-side space

DIY TIPS TO REMEMBER:

- Check all necessary building codes or permits
- Decide on a substructure: Trex Elevations® or wood
- Consider the need for stairs...and extra materials they require
- Use 16" on-center joist spacing for this deck design
- Fascia screw counts assume 2x8 framing; more required if using 2x10 framing. See Trex Install Guide for details
- To install, follow the instructions found in the [Trex Install Guide](#), available on [trex.com](#)

Take this to a builder or dealer to get all the components & estimates necessary for your ideal deck

ESTIMATE ONLY: Material counts are approximated. Contact your local Trex dealer or TrexPro® deck builder for a more accurate quote.
