## What to consider when comparing TREX VS. WOOD

..... *start with* .....

### INITIAL COST

While the upfront price of pressure-treated lumber is low, a Trex investment breaks even after only a few years.

.....  
but consider  
.....

### LONG-LASTING BEAUTY

Nothing compares to the natural patina and heft of wood...except Trex high-performance composite decking that never fades, stands up to spills and scratches, and is made of 95% recycled materials.

..... *don't forget* .....

### MAINTENANCE TIME

Wood decks require extensive upkeep—from sanding to staining to painting. Trex was engineered to avoid the constant maintenance.

#### UPKEEP OF WOOD

**20**  
HOURS  
per year

#### UPKEEP OF TREX

**2**  
HOURS  
per year

..... *factor in* .....

### MAINTENANCE COST

Deck maintenance adds up over time. Not only does Trex cost less over its lifetime, but it lasts longer, too.

#### UPKEEP OF WOOD

**\$400**  
in the first year  
**\$100**  
average annual cost  
over 25 years

#### UPKEEP OF TREX

**\$10**  
per year for the  
next 25 years

# WHICH DECK PLAN *fits your needs?*

## Rectangle Deck

- Offers room for outdoor eating and grilling
- Works well with smaller homes, rooftops or side yards
- Standard shape makes for a versatile, multi-use space

## Overlook Deck

- Provides distinct spaces so you can get the most from your deck
- Works well with smaller to mid-sized homes with gardens or extended views
- Multi-side add-on makes for a cozy sitting or dining area

## Beveled-Edge Deck

- Allows for large sitting area or several smaller spaces
- Works well with smaller to mid-sized homes of contemporary design
- Rounded corners open the view and décor possibilities
